ABOUT

Computer Science student at The Cooperative University of Kenya, building full-stack products end to end — from database design to live cloud deployment. I work across Java/Spring Boot and Node.js/React, with a growing focus on DevOps and cloud architecture. I build fast, ship live, and document everything on GitHub.

PROJECTS

Full-Stack E-Commerce Marketplace Platform - *Personal Project*

2026

Built and deployed a full-stack e-commerce marketplace covering product listings, cart & checkout, order tracking, and seller analytics, with a curated seller-onboarding workflow reviewed through an admin panel. Integrated Stripe payments end-to-end, verified with real transactions, and built an M-Pesa STK Push integration, diagnosing a sandbox network-blocking issue directly with Safaricom API support. Designed a fully custom UI/visual theme from scratch and deployed it live.

Live storefront: ecommerce-platform-red.vercel.app

Technology Stack

- Node.js / Express
- PostgreSQL
- React / Vite
- Stripe API
- M-Pesa API
- Cloudinary
- Render (hosting)
- Vercel (hosting)

Hospital Medical Supply & Inventory Management System - *Personal Project*

2026

Designing a role-based hospital inventory system (Admin, Storekeeper, Auditor) to solve real stock-discrepancy problems, using a movement-ledger schema for full auditability. Tracks stock per hospital department, with batch-number and expiry-date tracking for medication and stricter controls for controlled substances.

Repository: github.com/EngReteti/Hospital-inventory-System

Technology Stack

- Java
- Spring Boot
- PostgreSQL
- Redis
- React
- JWT Auth

DSA & Algorithms Mastery - *Ongoing Practice*

2026 - Present

Solving data structures & algorithms problems in Java daily to sharpen problem-solving for technical interviews and system design.

Technology Stack

- Java
- LeetCode

SKILLS

Languages

- Java
- Python
- JavaScript
- TypeScript
- Dart

Frontend

- React / Next.js
- React Native / Expo
- Flutter

Backend

- Spring Boot
- Node.js (Express, NestJS)
- Django

Databases

- PostgreSQL / MySQL
- MongoDB
- Redis

APIs & Payments

- REST & GraphQL APIs
- Stripe
- M-Pesa

Tools & DevOps

- Docker & CI/CD
- Git / GitHub / Linux
- Postman
- Figma

LANGUAGES

English, Kiswahili

EDUCATION

The Cooperative University of Kenya, Nairobi - *Diploma in Computer Science*
Sep 2024 - Present (In Progress)

Undertaking my diploma at The Cooperative University of Kenya, covering Data Structures & Algorithms, Operating Systems, Networking & Distributed Systems, Information Systems, Artificial Intelligence, Databases, Web design and Programming Fundamentals.

St. Thomas Aquinas Boys School, Makueni - *Kenya Certificate of Secondary Education (KCSE)*
Jan 2019 - Dec 2022

I undertook my high school studies at St. Thomas Aquinas Boys School within the years indicated above in Makueni, Kenya.

Parsinti Primary School, Kajiado - *Kenya Certificate of Primary Education (KCPE)*
Jan 2009 - Dec 2018

I undertook my studies at Parsinti Primary School in Kajiado, Kenya.

ACHIEVEMENTS

- 1,100+ GitHub contributions since Jan 2026
- 17-day longest coding streak
